Subject: Linde Project No. 3110 A2J4 BAYTOWN - Invitation for a meeting in Houston and on the area next To San Jacinto Bridge at I-10

Dear Mr. Miller,

As per October 18, 2013 I sent an E-Mail with the invitation for the a.m. meeting in Houston.

I fear, you have not received that mail as there is no reaction from your end to that.

Together with the TxDOT I would invite you and your relevant engineer for a meeting in Houston for November 21, 2013

The exact time and location will be given in due time.

Below please find the original text of the invitation.

QUOTE

As spoken in the last month Linde is strongly interested to get access to the area at San Jacinto River near I-10 and to handle our heavy lift movements over that area.

To present feasible concepts to improve the road for these movements crossing the existing siphon, Linde will invite you for a mutual meeting in Houston. We would like to meet you and your responsible engineers to find a proper solution. Our proposals for that meeting will be
Thursday, November, 21

Exact time and location will be mentioned in due time.

We kindly ask you to nominate your participants so that we are able to arrange a feasible meeting room and possibilities to carry all participants to the area for a local inspection.

Further we will also invite our partner for the heavy lift movements which will be nominated in November.

As a part of a certain preparation for the local inspection, we kindly ask for an accompanied access to the area two weeks in advance of the meeting. We want to have an electromagnetic survey to verify the facilities in 2 to 3 m under the surface. The evaluation of the survey will take around one week. We want to be sure to have the results for the meeting available.

We are looking forward for a successful meeting and your cooperation to have a smooth heavy lift

9494802

handling for our project.

UNQUOTE

Please let me know at the earliest how many people will attend from CWA to arrange a location accordingly.

For any further question please let me know.

Mit freundlichen Grüßen / Best regards

Jochen Helfers
